

Our Mission

Our volunteer organisation is to implement on-going action plans with a strong focus on education and awareness on the need for a clean environment.

Our activities include presentations/talks to the general public, schools, corporates, community groups, Camp Enviro-awareness and also participation in events like Clean and Green Week, International Coastal Clean-Up, World Water Monitoring Day and World Environment Day. In addition, our volunteer members, now over 230 strong and all passionate and dedicated people, perform regular weekend Boat and Bicycle Patrols along the Marina Reservoir.

As a strong advocate of Corporate Social Responsibility, we are reaching out to organisations like yourself to help us in our fight against litter and pollution of our waterways and be a joint guardian of our country's water resources. We therefore appeal to you to consider being a part of this effort by :

1. Displaying our posters/pamphlets at strategic location in your premises
2. Encouraging your staff to join us as volunteers or attend one of our on-going programmes.
3. Reporting promptly any source of littering/pollution to the appropriate authorities or WWS.
4. Registering and being among the subscribers to our Friends of the Marina Association (S\$240 per annum)
5. Helping WWS defray its operational costs by sponsoring, in-kind or financially

Waterways Watch Society
